

# The House Built on Rock

The foundation is the most important component in building a house. Our foundations are built on a strong belief in God.

**Wise Person's House**

What do you see in the picture? Isn't it a beautiful house built on solid rock? Yes, a wise man takes great care to have a solid foundation for his house. So when a storm or flood comes the house will not be destroyed.

But a foolish person builds his house on sand, without laying a foundation. What happens to his house when it is hit by a flood or a storm? See it for yourself in the picture below! The house is completely damaged.

### Foolish Person's House

We learn from this story that we must build our lives on the right foundation. When our lives are built on Jesus' teachings, no matter what the storms, we will stand strong!

“Anyone who comes to me and listens to my words and obeys them—I will show you what he is like. He is like a man who, in building his house, dug deep and laid the foundation on rock. The river flooded over and hit that house but could not shake it, because it was well built. But anyone who hears my words and does not obey them is like a man who built his house without laying a foundation; when the flood hit that house it fell at once—and what a terrible crash that was!”

Luke 6:47-49

Try this at home. Use some sticks and cardboard and make a house. Ensure that your house stands strong with a firm foundation. You must keep your home clean. It is your responsibility too. Always keep your books and uniform in the right place.
